

ISMAIL FADILLAH ADIPUTRA

adiputra.ismail@gmail.com | +1.314.201.8394 | 2784 San Rafael Place, St. Louis, MO 63114

EDUCATION:

LaunchCode

Coding boot camp with focus on Python and .NET Core C#

St. Louis, MO

2018 - 2019

EMPLOYMENT:

Beauty Trends, Inc.

IT and Design Manager

St. Louis, Missouri

August 2015 - Present

- Maintained the company's Magento-based commerce site to ensure daily operations.
- Performed an analysis on Shopify before finally performing a system transfer from Magento to Shopify. Created a website on Shopify by learning the in and out of how Shopify works such as their template guidelines, templating engine, and more. The site was built using Liquid templating engine (unique to Shopify), HTML, CSS, JavaScript and JQuery. The new site brings in \$75,000 per month.
- Performs troubleshooting on the company's hardware (computers, printers, IP phone connection, network) and software (Warehouse database) in the events of malfunctions.
- Makes design decisions for the company and brings them to reality. Decisions include (but not limited to) website layout change (HTML and CSS) for better user interface and experience, and catalog overhaul (Adobe products) for better readability and clean look.
- Extends Magento's capability based on the company's need by programming custom code and/or applying Magento extensions. Extended capabilities include new promotions, event count-down, etc. to better serve the company's customers.

Freelance

Web Developer and Hardware

St. Louis, Missouri

January 2013 - Present

- Offers services to individuals and/or organizations/companies that need to have a website built. Most websites were built based on WordPress. Requests so far have resulted in some wedding website and some start-up company website.
- Builds (putting together core PC components such as Motherboard, CPU, RAM sticks, etc.) and troubleshoots Windows PC for personal use as well as for clients.

PT. Bukit Pembangkit Innovative

IT Consultant

Jakarta, Indonesia

October 2013 - May 2014

- Provided technological inputs and implement them, leading to a better company productivity.
- Created the company's website, database, and communication system using HTML, CSS, JavaScript, PHP, and MySQL.
- Designed the company's Annual Report for 2014 using Adobe products.

ACTIVITIES & INTERESTS:

IT Volunteering

New City Fellowship – Church – St. Louis, MO

October 2014 - Present

- Provide IT help to the church's community and staff ranging from removing viruses, troubleshooting, to giving purchasing advice.
- Perform troubleshooting to the office's server (Windows Server 2003), computers, routers, and other devices to make sure that daily routines in the office are unhindered.
